Attached is the 2001 Annual Report of Mining Operations for Uintah Mountain Copper Company's Sunshine Quartz/Hematite Claims Project as required by Utah law.

The Forest Service completed the final draft of the EA on our test pit development phase of work in late 2001. We anticipate that the work at the mine site will begin on or after July 2002 and will be completed before the end of this year.

Paul Baker from your office recently contacted us to inform us of a reclamation area calculation error in the latest draft Plan of Operations submitted to the Forest Service. The revised quantities are reflected in the attached report and will be corrected in the final version of the POO. We appreciate the diligence of Mr. Baker in reviewing our plans and thank him for his prompt notification.

Please call us if you have any questions or need further information.

Sincerely,

Peter Kandaris
President, Uintah Mountain Copper Company
